VOLUME XLIV — UKIAH CITY, MENDOCINO COUNTY CAL., FRIDAY MORNING, JANUARY 26, 1912 — NUMBER 15

VERILY PRIDE GOETH BEFORE THE TUMBLE

W. H. Miller was showing off his new motor truck on State street last Saturday to an envious crowd of common mortals lining the sidewalks. He had ordered a carload of grain from the city for the special purpose of demonstrating the capacity of the machine and his own ability as a chauffeur and was busy transporting it to the stable. Beginning with a small load he gradually worked up until the top sacks were scratching the clouds and not content with that he topped the load with several of his sable men. He was puffing up the street perched proudly at the throttle making the corners on two wheels, when as he turned into Smith street, something happened. Presto! Damnation! The boys crawled out of the pile of sacks which littered the street and a howl of delight went up from the assembled audience. W. H. shut off his power, put on the brakes and sat grimly at the wheel; nor deigned he to turn his head until the last sack had been reloaded and he received intimation to go ahead. Then placing his thumb to his nose he wiggled his fingers derisively at the jeering multitude and proceeded serenly on his way.

Doing Good Business

I. N. Orr, proprietor of the second hand store on Main street, is a rustler and is doing a good business. Besides handling second hand goods, he deals in a line of furniture and is prepared completely to equip your home.

Mr. Orr spares no effort in his quest for patronage and is a firm believer in the value of advertising. He says Dispatch ads always bring him the best results and when he has anything he wants to dispose of in a hurry he uses this paper as the medium.

DISCUSS COLLECTIONS FOR FARMERS' PHONES

A meeting of representatives of the various "farmers" telephone lines in this valley and representatives of the Pacific Telephone Co. was held in Sanford's hall last Saturday afternoon.

The purpose of the meeting was to devise some way to collect the switchboard charges made by the big company for its patrons on the rural lines.

The company's system of bookkeeping requires that the secretaries of the local lines collect the charge made on each rural phone of $3.25 for the year's service and turn it in to the central office in a a lump sum. This has not been done, and Manager Louis Hardie, of theUkiah office has had a great dea of trouble in keeping his accounts straight as a consequence.

The meeting was addressed by Contract Agent Springer of the telephone company. No definite plan was agreed on but several were suggested and one of these or a composite o all of them may be adopted.

The matter is a very important one for the farmers and it is to be hoped an agreement will be made that is satisfactory to all parties concerned.

GRAND JURY STILL IN SESSION HERE

The Grand Jury met last Wednesday, having been summoned by Foreman W. G. Poage, and has been in session at its chambers in the court house since. The deliberations are secret, but it is not anticipated that anything of a sensational nature is on foot. They will probably adjourn tomorrow until the end of the fiscal year in June next, when they will reassemble to hear the experts' reports.

Not Much Difference

W. A. Chelew, of Covelo, came down to Ukiah this week to declare his intention of becoming a citizen of the United States. Mr. Chelew hails from Canada but talks like an American and looks like one. He says the only difference between a Canadian and an American is that one lies on one side of an imaginary line and the other on the other side, and that on the Canadian side the young fellows all chew tobacco and on the American side they all smoke cigarettes.

Eagles' Play Billed for Next Friday Evening. Will Present Many Big Features

Posters are out announcing the play which will be given by the Eagles in Cleland's hall February 2, next Friday evening. The play is a melodramatic comedy and is entitled "Florence". The cast includes the best local talent, and the affair is under the direction of that peerless manager, C. W. Mathews.

Mr. Mathews' long epxerience as a professional dramatist has given him a training that few persons in private life get in matters that pertain to the stage and Ukiah is lucky to have the opportunity of attending a play staged by him. He is ably supported by a fine cast and it is safe to say that "Florence" will be absolutely the best thing ever put on there, professional or otherwise.

The play is full of fine scenic effects and Mr. Mathews will be compelled to manufacture complete new scenery. Here his training as a professional comes in very handy and the wings and backs are being finished as fast as possible, he himself doing the painting as the frames are finished and the canvas stretched. Noteworthy among the more difficult scenes will be the magnificient salon of the Hotel de Russe at Baden-Baden, a moon lit lake, a London street in winter, and several others.

There will be a number of specialties introduced between the acts which will be well worth the price of admission alone.

Following is the cast, and it is safe to say that a better could not be chosen:

Sir Gervase Langton, a rich English Baronet, Florine Anker.
Berry Mallison, Alias Percy, Alln adventurer, Oscar Olsen.
Lodovic Stuyvesant, sharper and swindler, Keen Raffety.
Phoebus Rockaway, his associate, Neil Anker.
Mr. Rodrick, Tracy, a Bow street runner. C. C. Mathews.
Stephen Hardcliff, an accomplice of Mallison, B.L .Cleland.
Dozy, an ancient and somniferous watchman, C. C. Brewer.
Nap, J. Slow;
Snooze, B. Quick.
his companions in vigilance.
Madame Ritzdorf, a wealthy widow, Dr. Ida Lathrop Malpas.
Stella, her daughter, Mrs. Mattie Hutchison.
Florence Langton, with a weakness for finding out secrets; Grizzle Gutteridge, a Somersetshire wench: Mrs. Gammage, an ancient nurse; Mr. Harry Rickett, a fast young man, Barney O'Brien, from the Bogs of Bellyratggot, Miss Hazel Rice. Una Langton, her sister, Miss Patsy Hench.

Reserved seats will be on sale Jan. 27th in the morning. The doors will open at 7 o'lock p. m. and the performance will begin at 8 o'clock sharp.

The Weather

Dr. McCowen reports that the maximum temperature the past week was 69 on the 21st and the minimum 32 on the 21st. The rain for the past week has reached 1.85. Of this 1.30 fell in 20 hours and the down pour continues. The total to date for the season is 10.67 against 12.54 last year and 21.02 the year before.

The rain is the salvation of this country and once more we are assured of a plentiful precipitati n.

Don't Need Them Now

Everybody has discarded the flat boats that did ferry service on State street last winter and all crossings are made on foot. And the beautiful part of it is that you can cross right in the middle of the block if you want to without first strapping on a life preserver.

Winnie Cox has a special reel at the Victory tonight. He is trying to keep it secret but the reporter learned about it and is handing it to you on the quiet. It's one of the best he has ever shown here, and he intended it as a surprise.

BIG DEAL MADE IN SONOMA COUNTY HOPS

The Santa Rosa Press-Democrat of last Tuesday says:

There is considerable interest being taken by the hop growers of Sonoma county at the present time, particularly in the making of one-year contracts.

On Monday George A. Proctor, the local hop dealer, closed what is probably the largest single hop contract ever made in Sonoma connty, with Harrison Finley, the well knwn hop grower of Mark West. Mr. Proctor bought the entire crop of about 200,000 pounds, or one thousand bales, of Mr. Finle y's coming crop of 1912, at 27c per pound, involving an amunt of about $54,000. the price paid was somewhat above the prevailing values now being offered for contracts on the coming crop, but as Mr. Finley has the reputation of growing very choice quality, his hops generally sell at a premium.

The market for the 1911 crop now shows a quieter tendency, and the demand seems principally for futures, yet it is the opinion of many dealers that the brewers will eventually have to pay high values for the 1911 crop before the new crop comes in.

O. W. Jessup has contracted 30,000 pounds of hop for a term of three years, beginning with the 1912 crop at 22 cents; 1913 at 18 cents and 1914 at 17 cents., an average of 19 cents for the three years. This is believed to be the best contract price for three years, although several growers have been offered the price previously, and it was refused.

DOGS ARE NOW UNDER BAN IN TOWN LIMITS

Some time ago the town board passed an ordinance removing the licenses on dogs and requiring owners to keep their canines off the streets. This ordinance hitherto has been a dead letter, not being enforced, but it is now announced that it will be strictly enforced to the letter, and no favoriteism will be shown.

Executive Officer Clyde Brewer wishes to give all dog owners fair warning to keep their brutes at home. The action of the authorities is not from a malicious motive; the nuisance has simply become unbearable and the action is imperative.

Dr Case left for the city last Saturdayand will open offices there at 830 Market street where he will be pleased to welcome his Mendocino County friends. He was accompanied by his son, George, who will enter a business house.

Sold His Cows

A short time ago Judge Crockett advertised three cows for sale in the Dispatch and inside of three days had disposed of the whole bunch. Following his example Mrs. Corley has placed an ad offering a cow for sale in this week's paper. If you have anything to sell and anybody wants it, or you want something and anybody has for sale, the best way in the world to get together is through the colmuns of the Dispatch. That we give best results to our advertisers is evidenced by the fact that we carry more advertising matter than any other paper in the county year in and year out. Just at present we have them all skinned a city block.

Will Open Blacksmith Shop

J. A. Montgomery, who recently sold his blacksmith business in Sherwood valley and moved to Ukiah with his family, has taken over the shop recently vacated by John Mosier and asks for a share of the public patronage.

Mr. Montgomery will install a great deal of new machinery in his shop and will have an entirely up to date equipment for handling anything in his line. He is a skilled workman himself and will employ only the best help.

He is a son-in-law of H. J. Holzhauser and has made many friends since his advent here.

E. P. Gillmore came over from his home at Point Arena and remained in town on business for a few days this week.

PRESTON BROTHERS SELL ABSTRACT BUSINESS

The Ukiah Guarantee Abstract and Title Company, founded here in 1902 by Preston & Preston, was sold this week, the purchasers being Pat Connolly and Percy Handy. The price paid is not stated but is said to have been the most ever paid for a business in this city.

Owing to their large and steadily growing law business the Prestons have found it necessary to dispose of their abstract business and H. L. Preston, who has hitherto directed the abstract work in his spare time, will give his whole attention to the law. Howard Preston, who has been manager of the Abstract company, will also enter the law, and will be associated with his two brothers.

Messers. Connolly and Handy will retain the present well appointed offices of the company in the Preston building. The business is a good one and growing steadily and they are to be congratulated on their business foresight in getting hold of it.

Mr. Handy's reputation for carefulness in matters of a clerical nature is second to none in the county, while Mr. Connolly's long experience in working among the recods both as County Recorder, and after his retirement from office insure that they will maintain a high standard of efficiency in their work. They deserve and will get a big share of the public patronage.

Frank Cunningham and wife are visiting in San Francisco this week.

FREY CASE IN COURT DURING WEEK

The case against Fred Frey was tried in the Superior court this week, going to trial last Tuesday. The jury was chosen Tuesday and the case progressed until Wednesday afternoon when it was postponed until the prosecution could get a witness from the city. The witness arrived Wednesday evening and the case was resumed yesterday. It will go to jury to-day.

A question was asked one witness as to who were in an automobile party which made a trip to Redwood valley.

The answer was "three real estate men and one gentleman." It developed afterward that the "gentleman" was Frey. Real estate men are a pretty hard bunch, being but little better than newspaper men as a general thing, but it seems that the witnesses answer in this case is a little too hard on them.

Put off His Shave

A fire alarm was turned in last Tuesday for a chimney burning out in the residence of W. J. Hildreth. The alarm found George Southard, who drives the untamed steeds which haul the fire engine to conflagrations, snoozing in the barber chair with one side of his face shaved and the other in a state of preparation for a like treatment. George sprang from his leathery couch in haste and bolted to the door just in time to see his team round a nearby corner. By dint of much sprinting and cutting across lots he beat them to the engine house and by the time the engine was attached he was strapped to his seat and holding the ribbons ready for the run. He says that team will leave their job any day to go to a fire and as soon as he hears the firebell he just cuts across lots to the fire house and waits for them.

Gets Thirty Days

W. A. Cone was caught with the goods last Sunday as he was passing booze to a number of Indians in the White feedyard. The arresting officer was Clyde Brewer, who had noticed unusual excitement among the redskins round town and who trailed them to the place where the arrest was made.

Cone pleaded guilty before Judge Crockett and was given 30 days in the county jail.

Bert Miller was called to Mendocino the first of the week to act as a witness in the case against Frank Bean, charged with setting nets in Big River.

THE KNOCKER IS ABROAD IN UKIAH

If there is any class of business men that should be forever and eternally boosting, that class is real estate dealers. And yet there is a man in Ukiah calling himself a real estate man who is the worst enemy that the community has, out of jail.

Recently a local real estate firm had a sale on the tapis for a $12,000 ranch. Their parties were almost persuaded to invest, when for a time they inadvertently left them unguarded. The knocker was watching his chance and approached the strangers with words to the effect that they were being robbed. " I can sell you that ranch for $10,000" he is reported to have said. "These people are cheating you. There is no ranch in this county of that size worth that money. But let me sell you a good ranch. That ranch is no good" and so on. Of course there was only one result possible. He "queered" the sale. Like cases have occurred time and again in smaller deals.

A well known San Francisco attorney was attempting to sell a cattle range belonging to him in the Long Valley section. This party approached the prospective purchaser stating that there was no range land in this county worth $6 an acre, the price asked by the attorney, and that he was being outrageously humbugged.

This man with his despicable" tap, tap, tap" has done more than any other one cause to keep outsiders from settling here. If he cannot make a sale himself he tries to knock the other real estate men. Of course he is half crazy but that is no reason he should be permitted to continue in this course. A citizens' committee should wait on him with an invitation to leave the country.

ARRESTED FOR ROBBERY; CONFESSES TO THE CRIME

Sheriff Byrnes was called to Ornbaun valley the latter part of last week to investigate a robbery that had taken place there. As a result of his investigations he arrested Stanley Howe and brought him over to the county jail Sunday, and placed him in solitary confinement.

The first of the week Howe confessed to the crime, Byrnes having worked on him until the man finally decided that this was the best way out.

Howe had stolen some money from his employer, J. S. Ornbaun and when the hue and cry was raised became scared and placed the money where it could be found in a bathroom.

He plead guilty and the county will thus be saved the trouble and expense of a trial. He was given 60 days in jail.

More Illegal Fishing

Hiram Cape was taken on Jan. 17th for illegal fishing on Ten Mile river by Game Wardens Will Ray and Willard Burns, of Laytonville. He had seven nets set in the river.

He was taken to Fort Bragg and fined $100.

Mendocino people have been exceptionally alert in seeking out educational opportunities, and your correspondent at Stanford finds a Stanford man from Ukiah holding one of the most honored positions in college life. We speak of Almon Bush, Student Body Advisor. This is but one of the many prominent students whose names appear on the Stanford graduate catalogue. Mendocino has furnished and will be called on to send her quota of new men, for I have noted the names at the writing of two Freshman girls from Mendocino High School.

Steamer Has Narrow Escape

On our last trip down, about 5 o'clock on Saturday evening, the Sea Foam and steamer Mendocino Dollar rubbed noses. It was rather a close squeak. The Sea Foam was in a fog bank at the time. The fog was apparently, limited in area, however, as following the meeting of the two vessels the Sea Foam in few minutes' time emerged into clear weather. The other vessel had just run into the fog and had not been whistling regularly so that the two steamers did not locate one another until they were almost together. The Captain of the Sea Foam backed his vessel and the other steamer rubbed alongside striking part of the deckload of lumber and carrying away a few pieces of lumber. Other from that no damage was done.—Beacon.

Ties For Hawaii

The Mendocino Lumber Company is filling an order for 4,000 ties for Hawaii. Comparatively few ties are made these days and the stock on hand did not exceed a couple of thousand, so some four thousand seven-foot ties are being recut to six foot measure to complete the order. The ties are evidently for a sugar plantation railroad. Hawaii these days is exporting quite a few hard wood ties to California. They are said to be quite satisfactory in a dry climate, but they won't last in their native land where the moisture and heat soon rot anything but redwood.—Beacon.

Camps Shut Down

The North Fork branch of the Fort Bragg woods has been closed for the winter. The chopping and grading crews are still working on the advance work. The main river will be cleaned up this winter, and next spring the entire force will go into the North Fork.—Beacon.

WORKING AGAINST THE BLIND PIG

Grand Vallant Commander Thomas W. Rooke, of the Royal Arch, accompanied by J. W. Daley, another prominent member of the order, was in Ukiah and addressed the Ukiah members of the Royal Arch the latter part of last week.

According to Mr. Rooke, many people have a mistaken idea of the Royal Arch, believing that it is a political organization of the Blind Pig men. It is not so at all. Mr. Rooke stated that no mention is made of it in the lodge room, nor has the subject been a part of the ritualistic work.

Old Deed Old

[illegible] Board of Trade [illegible] Wednesday night [illegible] to be under the auspicious of commemorating the first anniversary. A large number of members and several visitors were present and much interest was manifested in coming events.

The Board of Trade has been organized one year and yet there are people in town who do not know its objects, what it has done or what it intends to do. To do the greatest good everyone must understand the objects in view and work in harmony, and to this end it was decided Wednesday night to give an entertainment and banquet on Saturday evening, January 27.

The following committees were appointed to arrange and carry out the plans suggested:

Banquet—Paul Lucas, H. B. Mohr and Geo. Miller.

Entertainment—N. P. Howe, J. Tom Jensen and Wm. Hare.

Decorations—H. G. Schaefer, Peter.

The young couple are now in Cloverdale, where they will make their home. The bride formerly resided in the Yorkville section, her parents moving to the Todd district several months ago, and the groom has resided all his life in Cloverdale.

POTENTIAL WEALTH IN KELP BEDS

The enormous beds of kelps which grow along the Pacific shores of the United States represent an undeveloped source of great national wealth as is suggested by Professor W. A. Setchell, head of the Department of Botany of the University of California, in a report to the United States Bureau of Soils. At present the United States imports more than fifteen million dollars worth of potash yearly, from Germany. Professor Setchell estimates that a million tons of potash worth forty million dollars, might be obtained, not once only, but every year, from the kelp beds along the California, Oregon, and Washington coast. Besides potash, to be used for fertilizing farms, this seaweed could yield also, he says, iodone, glue shellac, paper, and food for both man and beast.

The Mendocno County coast noted particularly for the heavy kelp growths that line the rocks and shallow ocean depths along its shores and it is only a matter of time until these will be put to the use suggested by Prof. Setchell. There are inexhaustible sources of wealth entirely unexploited in the ocean and sooner or later they must be put into the use of man.

FACTS

The Ctock of the Lake County Canning Company is a Safe, Sound and Profitable Investment

Because

FIRST

The investment is based on real estate and not on an idea. The company will have as an asset 244 acres of the most productive land in Lake County which in itself is worth the entire capital of the Company.

SECOND

A sure and profitable market is established as there has never been a year when the demand did not far exceed the supply. For years this land has produced a large yield and a high quality of beans. It is proven ground.

THIRD

By establishing a general canning business the Company will have an increased source of profit. This will also provide a local market for pears, peas, tomatoes and other vegetables suitable for canning purposes.

FOURTH

The management of the Company will rest with local men of repute selected by the stockholders. Your money will not be sent to some other community and placed in the hands of strangers.

FIFTH

The enterprise can depend entirely, if necessary, on the output of stringbeans to show a profit the first season.

By combining the interests of the many investors sufficient capitol will be provided to establish a general canning business that cannot fail to benefit both Lake and Mendocino Counties.

GHOSTLY BUTTERFLIES.

A Species in British Guiana Whose Wings Are Transparent.

In "Our Search For a Wilderness" Mr. William Beebe of the New York zoological park describes his first sight of the transparent butterfly—Hoetera piera—of British Guiana, an insect through whose outstretched wings any substance on which it rests can be clearly seen.

As we crossed a swirling creek on the trunk of a mighty fallen tree something fluttered ahead. We could not see what it was. Closer we came, and still the object remained indistinct. We seemed to see a butterfly, and yet that appeared impossible. At last we marked it down on a fern frond and crept up until our eyes were within two feet of it. Nothing was visible but the graceful lacework of the frond until a slanting beam of sunlight struck it, and there, close before us, was the ghost of a butterfly.

It spread fully three inches, but was wholly transparent, save for three tiny spots of azure near the margin of each hind wing.

As we looked it drifted to a double headed flower of scarlet, and when it alighted the scarlet of the flower and the green of the leaf were as distinct as if seen through thin mica, and the faint gray haze of the insect's wings was marked only by the indistinct venation.

The appearance of this ghostly butterfly amid the silence and awe inspiring stillness of the reeking jungle was most impressive.

BIG BELLS.

Canton Has One Eighteen Feet High and Forty-five Feet In Circumference.

Some of the old world bells are heavy indeed. "Great Paul" of St. Paul's cathedral, in London, weighs nearly seventeen tons and is nearly thirty feet around. The first "Big Ben" of Westminster was cast more than fifty years ago and weighed about fourteen tons and was about twenty-eight feet around. But "Big Ben" had a crack and was made over, losing some weight, and the clapper was made smaller, being now 600 pounds instead of about a ton. "Peter of York" cost $10,000, weight twelve and one-half tons; twenty-two feet in diameter or thereabouts.

The largest hanging bell in the world is said to be that in the great Buddhist monastery near Canton. It is eighteen feet in height and forty-five feet in circumference, being cast of solid bronze. This is one of eight monster bells that were cast by command of the Emperor Yung Lo about A. D. 1400. It is said to have cost the lives of eight men, who were killed in the process of casting. The whole bell on both sides is covered with an inscription in embossed Chinese characters about half an inch in length, covering even the top piece from which it swings, the total number being 84,000. These characters tell a single story, one of the Chinese classics.

Trees In Oranges.

The Mundus, a weekly published in Rome in five languages, states that one of the methods adopted by the Japanese to produce their curious dwarf trees is as follows: The pulp of an orange is removed through a small hole and the skin filled with a mixture of wool, charcoal and rich earth, with one seed toward the opening in the skin. The orange is put in a glass and watered by the hole, and every now and then a little wood ash is added. The plant shoots through the opening, and the roots pierce the skin. As soon as they do so they are cut off. After two or three years of this treatment the plant will be only a few inches high, but will have the aspect of an old forest tree.

An Old Friend.

A private soldier once rendered some slight service to the first Napoleon.

"Thank you, captain," said the emperor carelessly.

"In what regiment, sire?" was the instant response of the quick witted private.

"In my guards," replied the emperor, pleased with the man's ready retort.

This incident, with appropriate variations, also happened to Genghis Khan, Ivan the Terrible, Attila, Gustavus Adolphus, Louis XIV., Charlemagne, Alexander, King Alfred, Xerxes, Richard the Lion Hearted and Henry of Navarre.—Success Magazine.

C. H. Hurt was down from Covelo this week on duty as a grand juryman.. He stated that he was preparing 10 acres on his ranch in Round Valley and will plant the tract to Bartlett pears. This fruit is gaining great popularity among Round Valley people as a money maker. The climate and soil there appear to be ideal for its culture and it attains a perfection equalled in but few other sections.
